Moulded PET Screens

Dal
Brands

INSPIRATION

hedj

The new **Hedj** moulded PET screens from Dal, are inspired by the common, garden Hedge.

When you look at a hedge, you not only see a visual barrier, you also get a level of privacy.

Hedges do a great job of soaking up sound, they certainly provide a feeling of your own space while softening the noise level in both directions.

Hedge or **Hedj** the parallels are obvious:

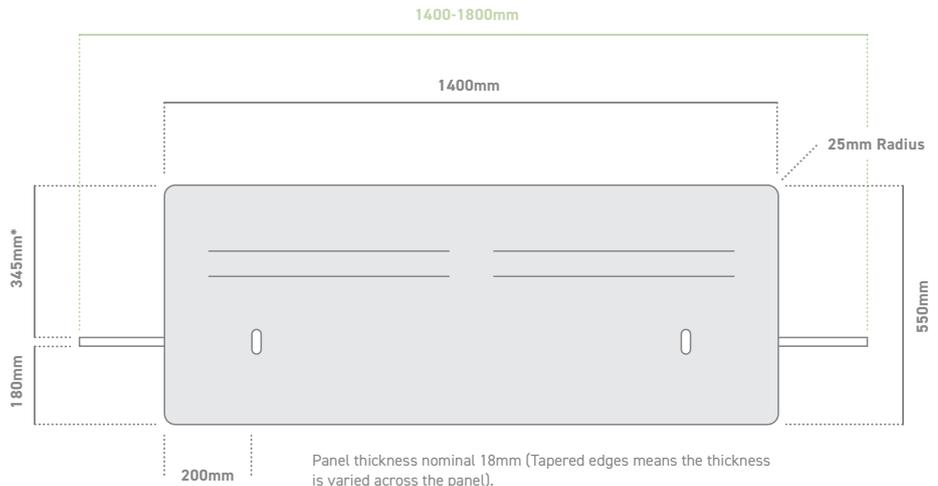

- Acoustic improvement
- Environmentally sensitive
- Visual barrier
- Privacy
- Aesthetic improvement

hedj FRONT

Our range of Hedj screens represent a new development in PET screen technology.

Hedj screens are manufactured using multi-layered PET material that is moulded under very high pressure to create a stronger, better finished product. **Hedj** screens are not simply cut from sheets of PET board.

Hedj is available in three standard forms, and several colours, from modesty panel versions to the simple above the desk divider or front mounted screens. **Hedj** is perfectly suited to a stand-alone desk, or a full office fit out.

Hedj screens come with all the environmental benefits of PET based product, it is classed as low VOC, it is made from recycled product, and it is recyclable.

Hedj brings a new aesthetic to your office with the fully moulded design while performing its job as a visual barrier.
