

evoke

Introducing the Gregory evoke, the latest in ergonomic mesh back seating. Combining the aesthetics only a mesh back can offer, with Gregory's unique ergonomic seating technologies, we have created the ultimate ergonomic office solution.

Featuring a height adjustable breathable mesh back that moulds harmoniously with each user's back shape while offering ideal weight distribution and support. The inclusion of a height adjustable lumbar support adds even more flexibility to this already great chair.

range features:

- Contemporary mesh back design
- Ratchet back height adjustment
- Height adjustable lumbar support
- Small, medium or large seat
- Original and award winning Dual Density Posture Support seat technology
- New improved 3 lever independent mechanism
- Premium 3 lever mechanism as standard
- AFRDI level 6 Certified*
- GECA Certified*

range options:

- Height adjustable arms
- Tri-Tek, X-Cel Comfort or Standard Deluxe seat technologies
- Synchronised mechanism
- Seat slide
- Aluminium base
- Various types of castors (e.g. soft tyre, friction etc)

* Undergoing AFRDI Level 6 Certification and GECA testing shortly. Currently uses certified components.

evoke

product specifications

Back Height	Product Description	AFRDI	GECA	Seat width	Depth of seat surface	Seat height range	Back width	Back height range
High Back	Evoke Small DD	-	-	460	460	410-530	485	550-610
High Back	Evoke Medium DD	-	-	480	495	410-530	485	550-610
High Back	Evoke Large DD	-	-	515	500	410-530	485	550-610

All measurements shown in mm. DD = Dual Density, W/A = With Arms.

The depth of seat surface is the maximum horizontal distance between vertical lines through the front and rear edges of the seat surface.

*A small variation of the final seat size may occur depending on the upholstery chosen.
