

Diffrient smart[™]

Designed by Niels Diffrient.
Made by Humanscale.

Featuring a unique linear design, the Diffrient Smart chair is ideal for any high design environment. Created with Humanscale's revolutionary Form-Sensing Mesh Technology, Diffrient Smart's tri-panel backrest fits like a perfectly tailored shirt to provide exceptional lumbar support. Using Humanscale's weight-sensitive, self-locking recline mechanism, Diffrient Smart automatically adjust to each sitter and provides perfect support to any posture.

The Diffrient Smart chair is ideal for Workstations, Conference Rooms, Reception Areas and Home Offices

Features

- Distinctive linear design that compliment any environment
- Innovative weight-sensitive, self-locking recline mechanism with 20 degrees of movement uses each sitter's body weight to perfectly adjust the tension and recline of the chair
- Unique arm design attaches to the back frame to provide support during full range of recline
- Tri-Panel non-stretch Mesh Technology provides perfectly tailored comfort and lumbar support for any posture
- Modular design ensures easy maintenance and allows the user to update the chair's aesthetic
- Contoured seat cushions that closely follow the body's shape and finished with a waterfall edge to offer long-term comfort, reduce pressure points and provide weight distribution
- A variety of high-performance textiles and proprietary meshes complement the chair's form
- 15 year warranty

Diffrient Smart Chair

- Supports user height range of 152cm - 193cm (5'0" - 6'4") and weight range of 45.4kg - 136kg (100 lbs. - 300 lbs.)

Environmental Story

Like all Humanscale products, the Diffrient Smart chair was designed with a constant and genuine focus on its environmental impact at every stage of its development. For us, the best designs in the world achieve more with less, and sustainability is the natural result of this focus.

The Diffrient Smart chair's lightweight design minimises the environmental impact of its shipping. Its use of highly recyclable aluminium and its simple, modular design makes it easy to disassemble and maintain rather than replace the chair completely. The Diffrient Smart chair is GREENGUARD Indoor Air Quality, GREENGUARD Gold and level® 2 certified.

“A smart chair adapts to your weight and shape automatically, as if the chair were made for you personally.”

Niels Diffrient
