Tech Tray

Installation Instructions

TECH TRAY INSTALLATION HARDWARE

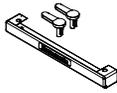

Tech Tray

Track

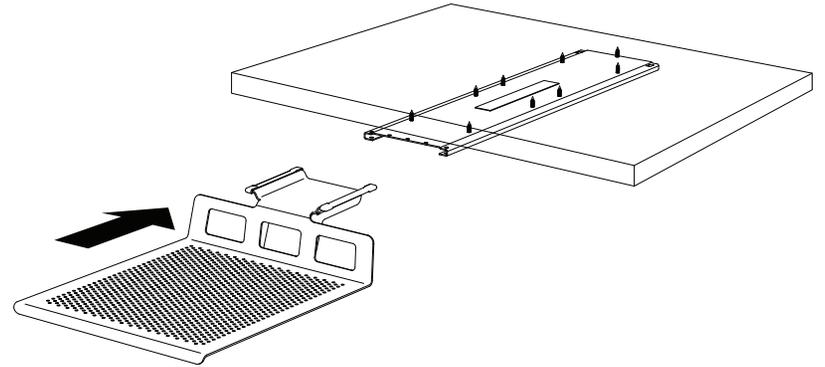

12 Installation Screws

Track Cover and Clips

STEP 2: INSTALL TECH TRAY

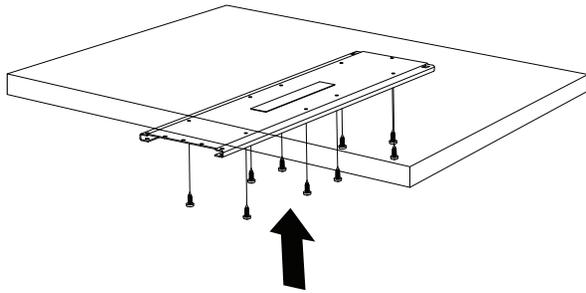

Slide Tech Tray into Track as shown.

STEP 1: INSTALL TRACK

Remove tape backing from Track and position Track on the underside of the desktop approximately 1/2" from the edge of the desk with the tabs in the back. Install using 12 Installation Screws.

Note: Do not fasten screws through the three holes at the front of Track.

STEP 3: INSTALL TRACK COVER

Place Track Cover over the front of Track. Use Clips to secure Track Cover to Track. Your Track system is now installed.
