PRO CLICK

With so much of your day spent working with a mouse, why compromise on its quality?

In collaboration with Razer™, Humanscale created Pro Click – a state-of-art wireless ergonomic computer mouse built for comfort and productivity. Engineered by top ergonomists and designers, its advanced size and shape alleviates wrist strain and promotes healthy arm posture to ensure long-term comfort.

The Razer Pro Click mouse features a 16,000 DPI 5G Advance Optical Sensor, ensuring that even the slightest of movements are tracked, giving you an acute level of precision. Its Multi-Host Connectivity feature pairs Pro Click with up to 4 devices, allowing you to maximise productivity by conveniently switching between your desktop, laptop, TV, or tablet with a simple click.

Features

- Ergonomic form factor with soft-touch coating for all-day comfort at work
- Razer 5G Advanced Optical Sensor for cutting-edge precision
- Multi-host connectivity for up to 4 devices for convenient multi-tasking
- Durable for up to 50 million clicks for greater reliability
- 8 programmable buttons for efficient, extended controls
- Extended battery life of up to 400 hours to power through long hours of work

Design Story

As the leading designer and manufacturer of high-performance ergonomic products, Humanscale partnered with Razer™ to create Pro Click, an office mouse with pro-grade precision that redefines the way you work. Using our expertise in workplace ergonomics, we designed the mouse at a tilted 30-degree angle to create a neutral posture for the body when in use. With near-perfect contours, the shape effortlessly fits each user's hand, holding it perfectly in place for hours of long-term comfort
