Dal EVO chair

Multi-posture chair

Fact Sheet

Overview

EVO isn't just a chair—it's an invitation to move. Designed by Henner Jahns of Gecco Vision, EVO encourages you to shift, perch, lean, kneel and stretch throughout the day, turning sitting into something active, engaging and surprisingly fun.

Forget the idea of one perfect posture. EVO celebrates movement, making it easy to change positions as your work, mood and energy change. It's ergonomics reimagined—not as a set of rules, but as a more natural way to sit.

Finishes:

Dal Gabriel Mozart fabric in 3 colours:
– Black 60999 – with black powdercoat metal parts
– Moss 68143 – with matching powdercoat metal parts
